INTRODUCTION

This report is the fourth addendum to the adopted Twin Creeks North Community Development District Engineer's Report dated April 14, 2016, the "Engineer's Report", amended on November 11, 2016 by Supplemental Engineers Report No.1, amended on May 12, 2017 by Supplemental Engineers Report No. 2 and amended on March 23, 2019 by Supplemental Engineers Report No. 3 as prepared by Prosser, Inc.

The Twin Creeks North Community Development District is an 892+/- acre community located in St. Johns County, Florida, east of I-95 and west of US-1. Twin Creeks North is a mixed use development consisting of single family, multi-family, office, commercial centers, and neighborhood parks. The development has proceeded in accordance with a planned, phased approach to the development. At the time of this Supplemental Report No. 4, the Master Infrastructure Improvements have been substantially completed using proceeds of the Special Assessment Bond Anticipation Notes, Series 2016 and the Special Assessment Bonds, Series 2016A-1.

The purpose of this report is to discuss the master developer's intention to sell lands located within the District's boundaries, anticipated land use change, and modification of the Parcel 5 and Parcel 6 development program.

The Developer advised the District that he intends to sell lands located within Parcel 5 which were originally planned to be developed with approximately 150,000 sq-ft of commercial uses. The new property owner anticipates developing these lands within Parcel 5, which are approximately 11.99 acres, with a total of 298 multi-family apartment units. Although the planned land use change will require additional onsite improvements to be constructed to facilitate the land use conversion, all costs of such additional improvements will be funded directly by the new property owner. In addition, the Developer has modified the development program for the remaining portion of Parcel 5 and Parcel 6 that provides 100 hotel rooms and 178,830 square feet of commercial use which is an overall reduction of commercial square footage.

The proposed land use modifications for Parcel 5 and Parcel 6 are tabulated below.

Parcel ID	Land Use	2016 Project Use	Proposed Use		
		GSF	GSF	Units	Rooms
5	Retail/Commercial	275,000	105,070	-	-
	Residential	-	-	298	-
	Hotel	-	-	-	-
6	Retail/Commercial	200,000	73,310	-	-
	Residential	-	-	-	-
	Hotel	-	-	-	100
Total		475,000	178,380	298	100

No additional master infrastructure improvements are required to be performed by either the District or the master developer to accommodate the land use conversion of Parcel 5 and Parcel 6 or the reduction of commercial square footage, and I do not expect that to change in the future. The actual physical District-funded improvements provided to all lands in the District will remain unchanged prior to and post land use conversion of Parcel 5 and Parcel 6. The amount of benefit that will accrue to parcels within the District from the Master Infrastructure Improvements that were District-funded will not significantly change as a result of the conversion of Parcel 5 and Parcel 6. Consequently, the determinations of the benefit from the Master Infrastructure Improvements to the residential and non-residential land uses will remain unchanged from previous Engineer's Report.

I hereby certify that the foregoing is a true and correct Supplemental Engineer's Report for the Twin Creeks North Community Development District.

1 Introduction

This Sixth Supplemental Special Assessment Methodology Report (the “Sixth Supplemental Report”) was developed to supplement the Fifth Supplemental Special Assessment Methodology Report (the “Fifth Supplemental Report”) dated February 7, 2019, the Revised Master Special Assessment Methodology Report dated November 11, 2016 (the “Revised Master Report”), and the Supplemental Special Assessment Methodology Report dated December 2, 2016 (the “Supplemental Report”). This Sixth Supplemental Report was developed specifically to provide a supplemental special assessment methodology for Commercial Parcel 5 (the “Parcel 5”) and Commercial Parcel 6 (the “Parcel 6”) within the Twin Creeks North Community Development District (the “District”), located in unincorporated St. Johns County, Florida, as relating to the planned sale and development plan change for Parcel 5 and Parcel 6.

2 Parcel 5 and Parcel 6 Sale and Development Plan Change

The District was recently advised by the developer of land within the District and the current owner of Parcel 5 and Parcel 6, Beachwalk Retail Developers LLC, that it intends to sell the land within Parcel 5 and Parcel 6 to another entity which intends to change the planned use from the originally-planned 275,000 square feet of commercial uses for Parcel 5 and 200,000 square feet of commercial uses for Parcel 6 to 298 Multi-Family apartment units and 105,070 square feet of commercial uses for Parcel 5 and 73,310 square feet of commercial uses and 100 hotel rooms for Parcel 6.

According to the Supplemental Engineers Report No. 4 prepared by Prosser, Inc. and dated November 10, 2020 (the “Fourth Supplemental Engineer's Report”), the Master Infrastructure Improvements have been substantially completed using proceeds of the Special Assessment Bond Anticipation Notes, Series 2016 and the Special Assessment Bonds, Series 2016A-1. Although the planned land use change will require additional onsite improvements to be constructed to facilitate the land use conversion, all costs of such additional improvements will be funded directly by the new owner of Parcel 5 and Parcel 6 and no additional Master Infrastructure Improvements are required to be performed by either the District or the Master Developer of land in the District to accommodate the land use conversion of Parcel 5 and Parcel 6, and District Engineer does not expect that to change in the future. The actual physical District-funded improvements provided to all lands in the District will remain unchanged prior to and post land use conversion of Parcel 5 and Parcel 6 and the amount of benefit that will accrue to parcels within the District from the Master Infrastructure Improvements will not change as a result of the conversion of Parcel 5 and Parcel 6. Consequently, the determinations of

the benefit from the Master Infrastructure Improvements to the residential and non-residential land uses will remain unchanged from those in the Engineer's Report, Supplemental Engineers Report No. 1, Supplemental Engineers Report No. 2, and Supplemental Engineers Report No. 3.

In light of the District Engineer's determinations above, this Sixth Supplemental Report proposes to maintain the Master Infrastructure Improvements benefit allocations and Master Assessment apportionment to Parcel 5 and Parcel 6 and to all other lands within the District. Further, and for the same reasons, it is also recommended that the District maintains the current apportionment of annual Operations and Maintenance assessments to Parcel 5 and Parcel 6.
